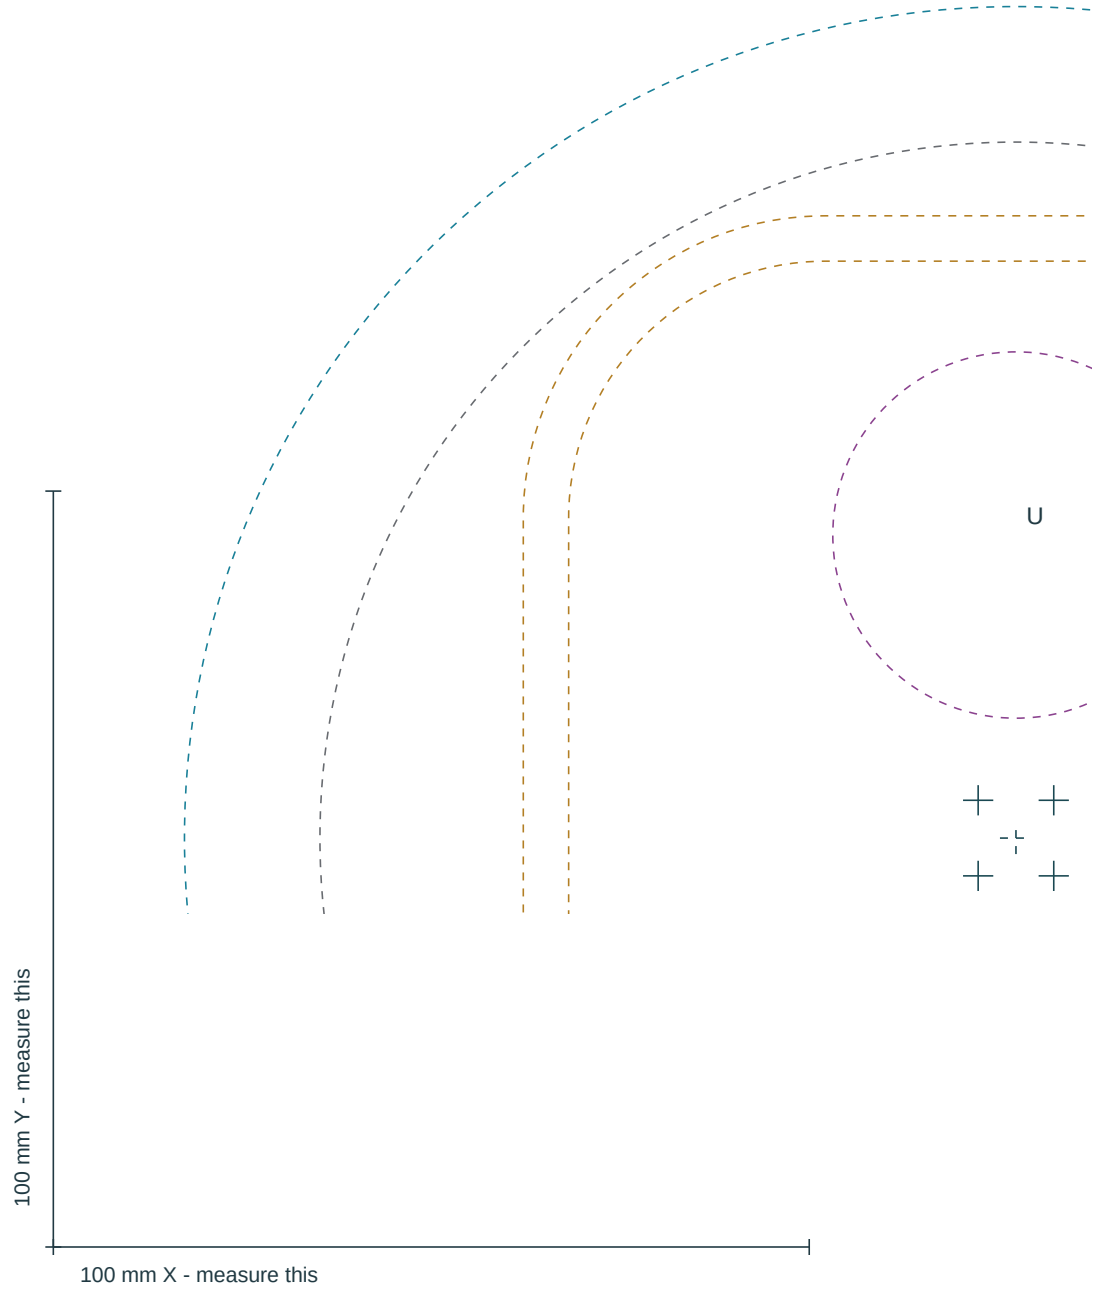
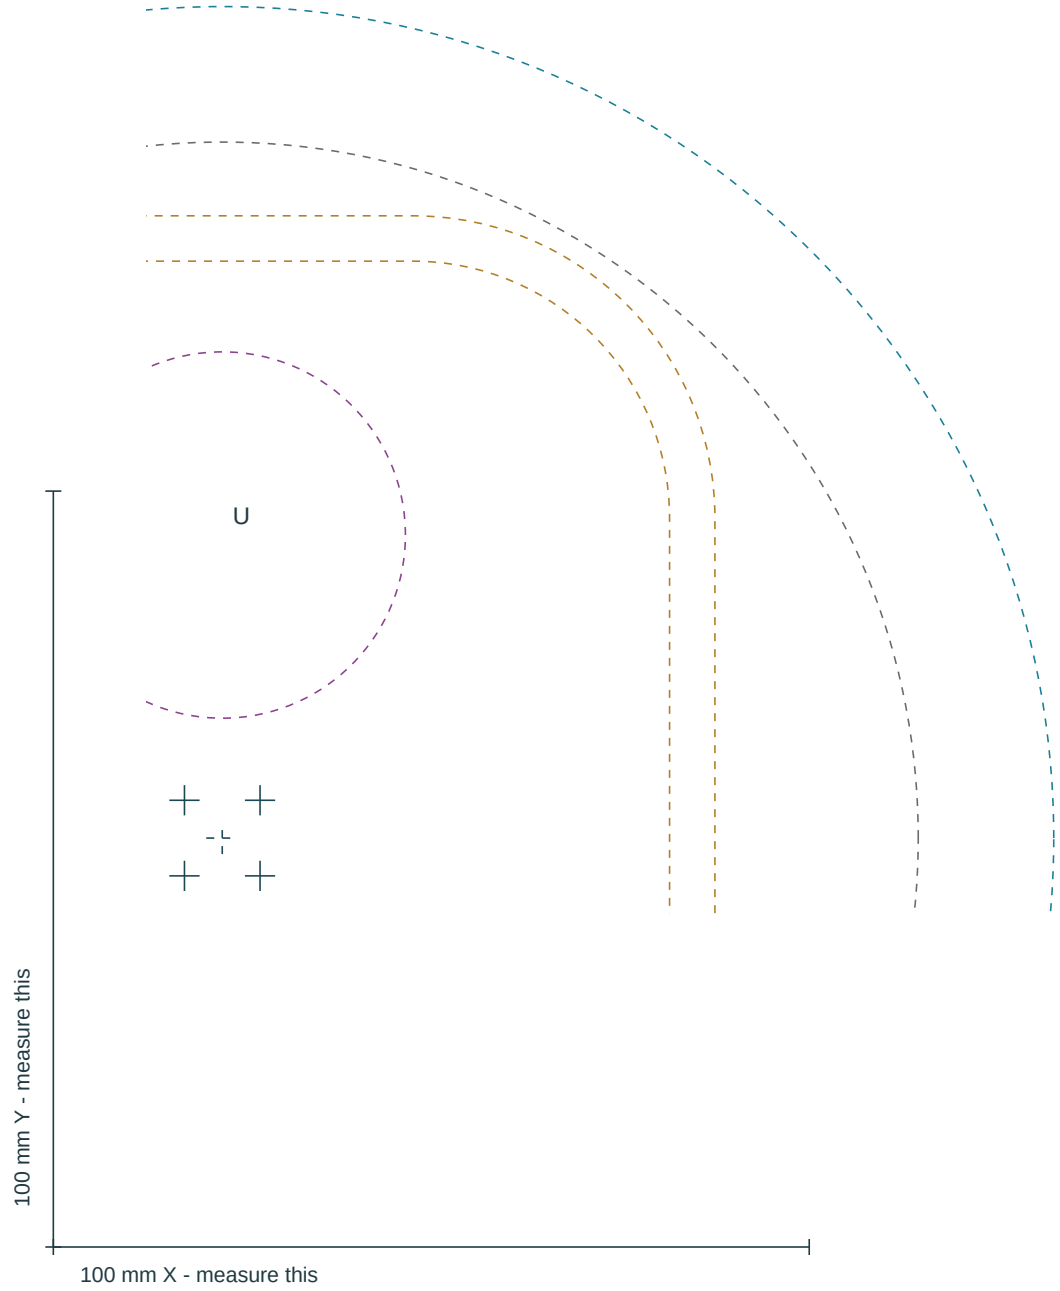
MAIN reference / tile 1A

Do NOT cut these marks into the metal. Print at 100%; check both bars. Overlap 20 mm and join four crosses. Gray: factory cover. Gold: assumed corner shape of edge-flush foam. Purple: factory openings; lower diameter/centers remain reference assumptions.



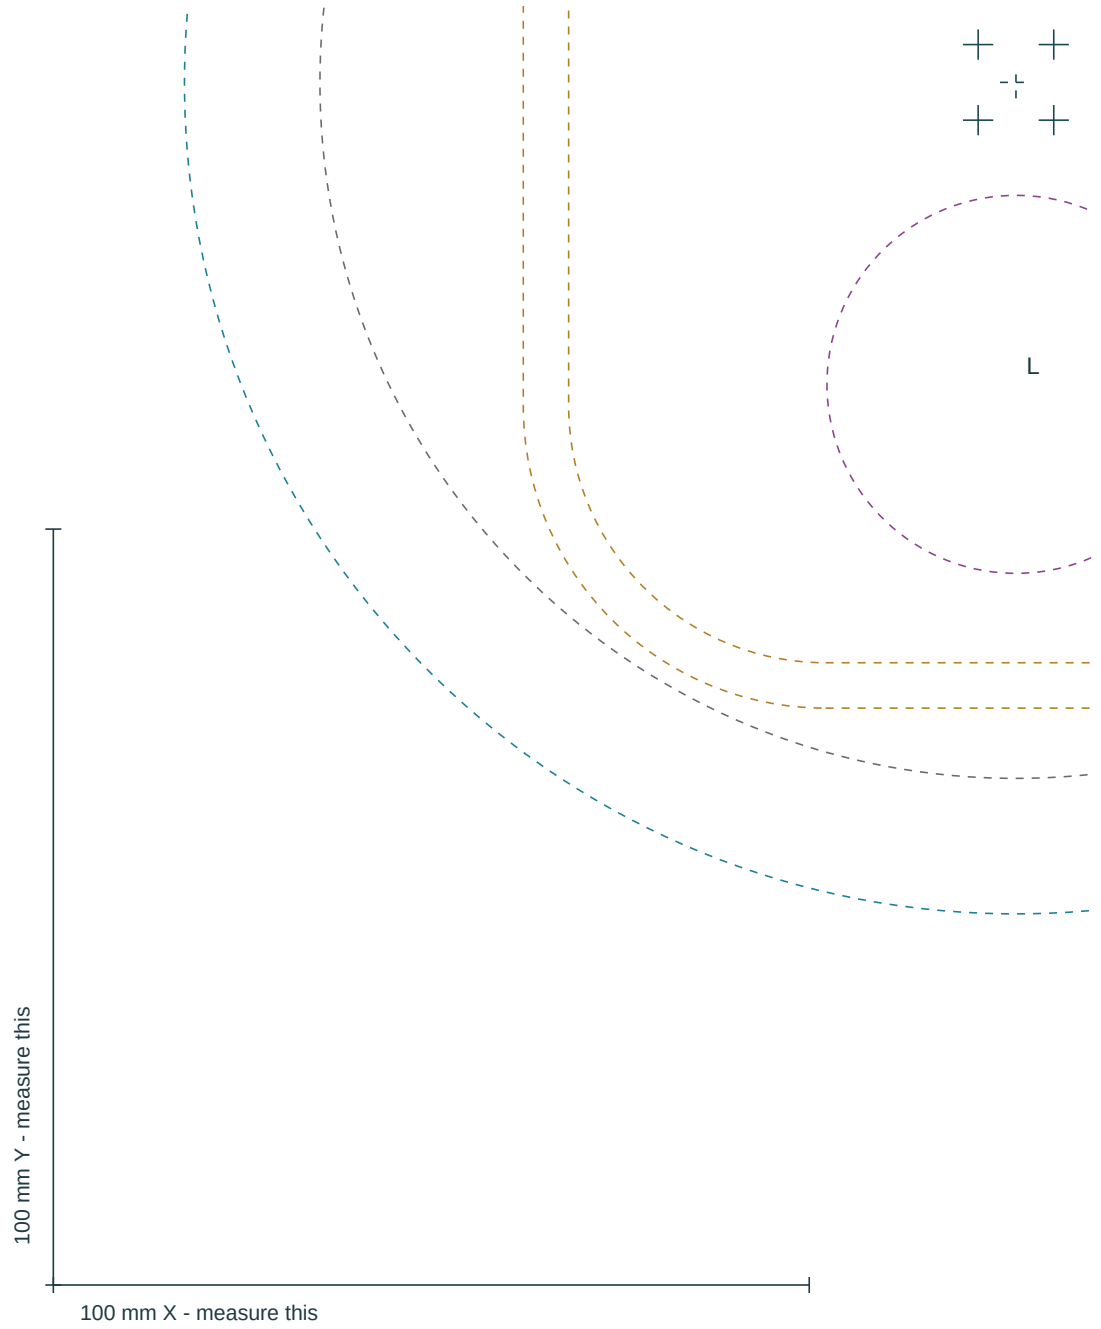
MAIN reference / tile 1B

Do NOT cut these marks into the metal. Print at 100%; check both bars. Overlap 20 mm and join four crosses. Gray: factory cover. Gold: assumed corner shape of edge-flush foam. Purple: factory openings; lower diameter/centers remain reference assumptions.



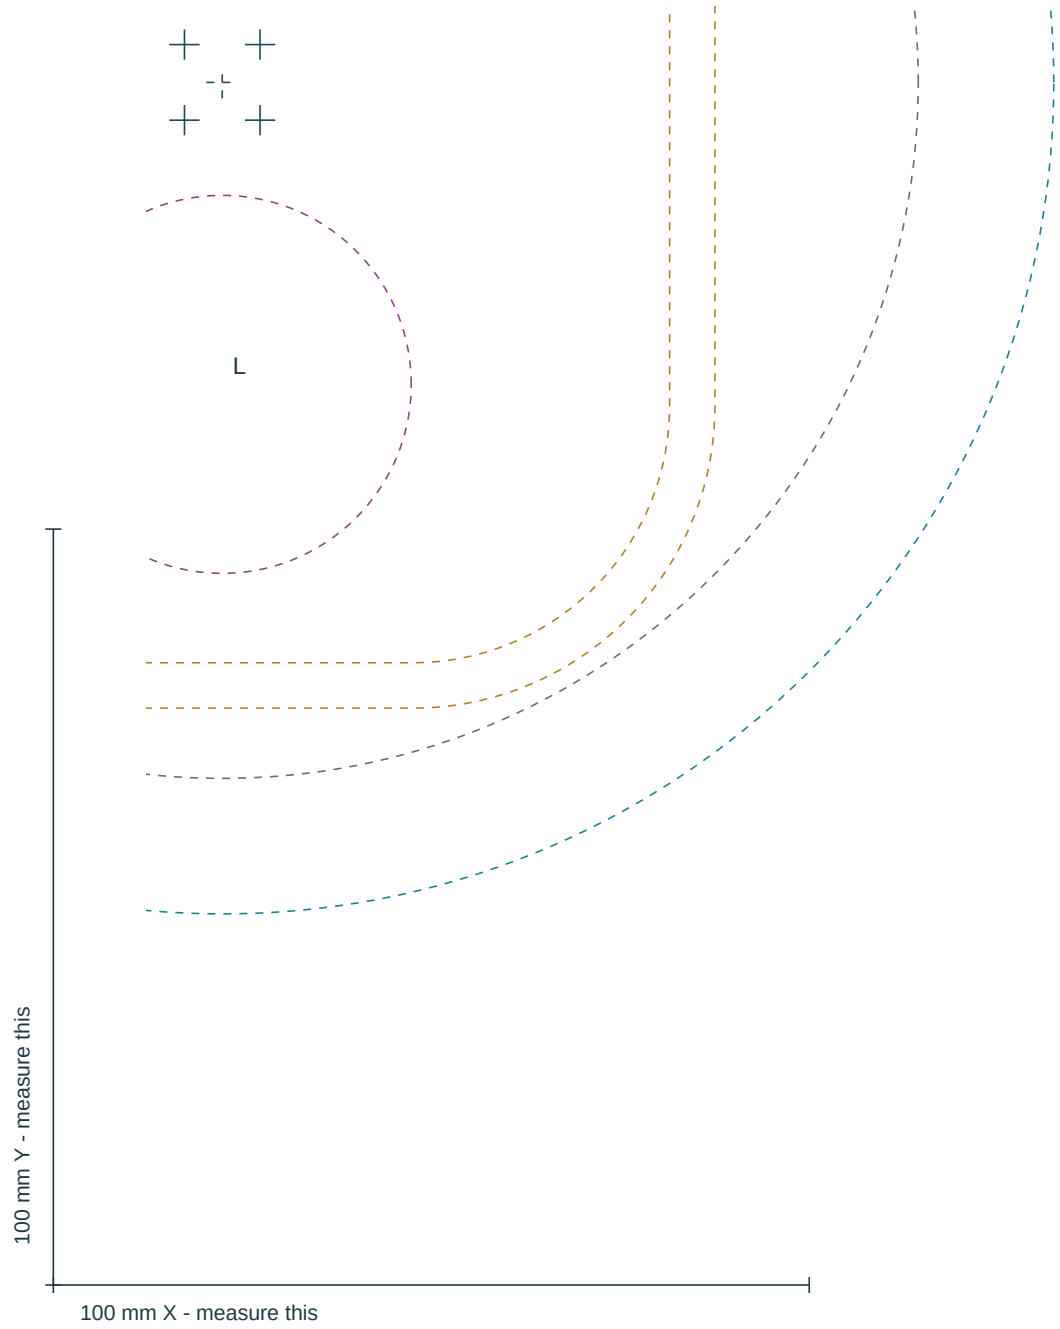
MAIN reference / tile 2A

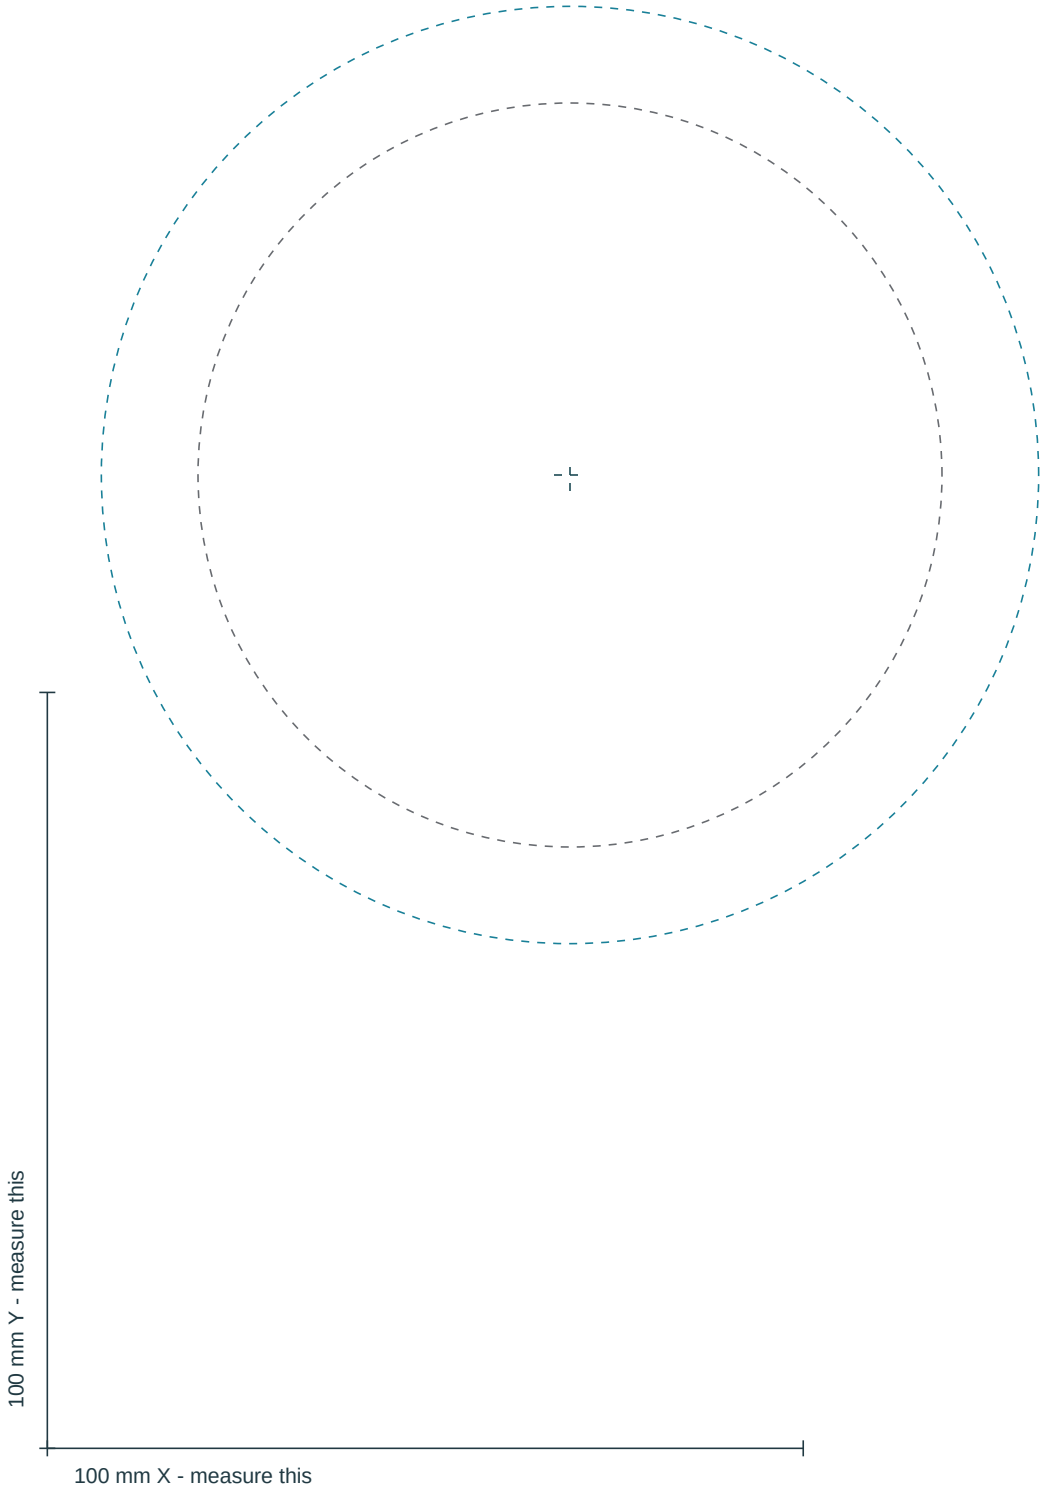
Do NOT cut these marks into the metal. Print at 100%; check both bars. Overlap 20 mm and join four crosses. Gray: factory cover. Gold: assumed corner shape of edge-flush foam. Purple: factory openings; lower diameter/centers remain reference assumptions.



MAIN reference / tile 2B

Do NOT cut these marks into the metal. Print at 100%; check both bars. Overlap 20 mm and join four crosses. Gray: factory cover. Gold: assumed corner shape of edge-flush foam. Purple: factory openings; lower diameter/centers remain reference assumptions.



DIVERTER reference / 100%


Gray cover D98.425 is manufacturer nominal. Blue backing D124 is selected. This shows a concentric border; it does not depict or certify the hidden rear-contact footprint. Cuttable D124/80 profile is in TEMPLATES_LETTER.
